

PROFILE

Driven and forward-thinking final year student pursuing a Bachelor of Technology in Computer Science, Possessing a profound passion for technology . Proactively engaged in continuous learning, I eagerly seek out emerging trends and opportunities to contribute innovative solutions.

EDUCATION

B.Tech. in Computer Science	Sep '20 - Jun '24
Mahakal Institute of Technology	Ujjain
8.01 CGPA	
Higher Secondary	Jun '19 - May '20
Ujjain Public School	Ujjain
74.8%	

KEY SKILLS

C	C++	JavaScript	React.js	SQL	HTML	CSS	Problem Solving	OOP
---	-----	------------	----------	-----	------	-----	-----------------	-----

TCS NQT SCORE

Programming Score - 98.85%

Advanced Section - 88.99%

Foundation Section - 70.14%

PROFESSIONAL EXPERIENCE

Web Development Intern	Jun '23 - Present
Netspace Software Solutions	
06/2023 - Present	
Actively participating in a comprehensive training and internship program focused on HTML, CSS, JavaScript, and React.	
Collaborating with a team of developers to design and develop web applications using modern front-end technologies. Internship.	

PROJECTS

QueryQuest

- Developed a highly functional search engine utilizing advanced web development technologies.
- This search engine enables users to enter search queries and displays relevant results. Integrated a powerful database system to efficiently store and retrieve indexed data, optimizing search performance and accuracy.
- Technologies Used: HTML, CSS, JavaScript, PHP
- Database : MySQL

DAILY INFO HUB

- Developed a dynamic user friendly news website with user authentication and a modern user interface design.
- Implemented an intuitive navigation system and comprehensive search functionality, enabling users to quickly find relevant news articles.
- Technologies Used: HTML, CSS, JavaScript.

GAMIEFY

- Gamify is a multifaceted project that features a collection of engaging games designed to entertain and challenge users.
- Gamify showcases my strong command of coding principles and efficient problem-solving techniques. Leveraging my knowledge of data structures and algorithms.
- Technologies Used: C , C++
